

**STATE OF VERMONT
PUBLIC SERVICE BOARD**

Docket No. 7970

Petition of Vermont Gas Systems, Inc. for a certificate of public good, pursuant to 30 V.S.A. §248, authorizing the construction of the “Addison Natural Gas Project” consisting of approximately 43 miles of new “natural” gas transmission pipeline in Chittenden and Addison Counties, approximately 5 miles of new distribution mainlines in Addison County, together with three new gate stations in Williston, New Haven and Middlebury, Vermont

1. In the Petitioner's prefiled testimony, Ms Simollardes predicts this project will save the state much in GHG emissions. Could you put a cost per ton on the GHG emissions she claims this transmission pipeline is projected to save? Could you compare this to the cost per ton on GHG emissions saved through weatherization?
