INTERROGATORIES AND REQUESTS TO PRODUCE

Q. 1. In the Petitioner's prefiled testimony, Mr Heintz refers to the re-routing of the pipeline from the VELCO right of way across our farm as a result of VELCO infrastructure. (Between poles # 180-190) Please provide documentation of the specific infrastructure this re-route is circumventing and causing it to cross through our property and our lives. Please be specific as we would like to know what structure is more important than our soil, and our safety.
