

Enjoy a more comfortable
and efficient home.
And save energy!

Vermont Gas is unique among fuel suppliers in having an award-winning Energy Efficiency Department. We're committed to saving you money, and helping you be a good steward of the environment. We offer tips for improving the efficiency of your home, and reward you for following them!

Since we launched our energy efficiency programs in the mid-'90s, we've saved as much natural gas as all our residential customers use in an entire year.

Reap the rewards
of energy efficiency!

RETROFIT PROGRAM: 4821012 VG

If your home qualifies, we'll send one of our certified home energy auditors to conduct a comprehensive energy audit, at no cost. We'll inspect the house as a whole and recommend various efficiency measures such as air-sealing, additional insulation, or replacing old heating equipment with high-efficiency models.

Blower door test to check for air leaks

of qualified contractors. And in many instances, we can arrange zero-percent interest loans for

Thermographic scan to reveal poor or missing insulation

enrolled in the Retrofit Program. We also offer cash incentives for efficiency improvement projects, as much as one-third of the cost in most cases.

To see if your home or multi-family building qualifies for incentives, contact efficiency@vermontgas.com, or visit our website at www.vermontgas.com for more information.

Your energy auditor will arrive in a "green" car, powered by natural gas!

NEW CONSTRUCTION PROGRAM:

Build an ENERGY STAR® home!

Vermont Gas is committed to helping builders and homeowners construct highly efficient new homes. So we partnered with Efficiency Vermont, the state's electric utility, to develop the Vermont ENERGY STAR® Homes program.

Services for Vermont ENERGY STAR® Homes participants include:

- No cost technical assistance to help you achieve the highest home energy ratings
- Assistance in complying with Vermont's Residential Building Energy Standards (RBES)

- Free construction inspection to identify potential insulation and air leakage problems
- Final inspection and home energy rating performed by a certified home energy rater
- Cash incentives for meeting minimum program thermal standards
- Additional incentives for installing efficient appliances and additional high efficiency lighting

For more information on our New Construction Program, contact efficiency@vermontgas.com, or visit our website www.vermontgas.com or www.energyservices.com

EQUIPMENT REPLACEMENT PROGRAM: Stop throwing away money!

When you upgrade your heating equipment, you're investing in a future where you'll be saving energy every day. Payback schedules vary depending on your situation, but on a comfort level the impact is immediate. We offer the following rebates to qualifying customers who switch to energy efficient equipment:

Rebate	Required Efficiency (as listed in GAMA)	Eligible Equipment (must be purchased new)
\$100.00	90% to 92% AFUE	Hot air furnace
\$300.00	92.1% to 93.9% AFUE	Hot air furnace
\$400.00	94% + AFUE	Hot air furnace
\$400.00	87% to 91.9% AFUE	Hot water boiler
\$600.00	92% + AFUE with outdoor control reset	Hot water boiler
\$150.00	82% + AFUE	Steam boiler
\$100.00	.62 + EF	Water heater 40/50 gal.
\$100.00	heated by an 87% + AFUE boiler	Indirect-fired hot water storage tank
\$100.00	.82 + EF	Tankless water heater
\$200.00	call for details	Drain water heat recovery

*Certain furnaces, water tanks & appliances may qualify for additional rebates from Efficiency Vermont. Please contact them directly at 888.921.5990 or on the web at <http://www.energyservices.com/pages/residential/rebatecenter>
